

DEFENDER SERIES

SHALLOW MOUNTED ROAD BLOCKERS

DEFENDER (YÜKSEK GÜVENLİKLİ ZİNCİR DESTEKLİ ROAD BLOCKER)

Çok yüksek güvenlik gerektiren nizamiye ve girişlerde tercih edilirler. Komple çelik ve mukavemeti yüksektir. Kamyon, tank, panzer v.b. askeri araçlarında çarpmasına ve izinsiz girişlere karşı tam kontrol sağlarlar. Sığ bir zeminde kazılarak montaj edilirler. Çok kalın yük zincirleri sayesinde çarpmalarda bile zarar görmez çalışmaya devam ederler. Defender bariyerler istenilen uzunlukta ve yükseklikte imal edilebilirler. Hidrolik çalışırlar, hava koşullarına dayanıklıdır. Gövde boyalı ve komple daldırma galvanizli imal edilebilir.

DEFENDER (HIGH SECURITY CHAIN BASED ROAD BLOCKER)

They are preferred at gates and entrances requiring very high security. Completely made of steel and provide high strength. They provide full control against unauthorized access even by military vehicles such as trucks, tanks, panzers, etc. They are mounted by digging in a shallow ground. With very thick load chains they are not harmed even by collisions and continue to work. Defender barriers can be manufactured at desired height and length. They are hydraulically operated and weather resistant. They can be manufactured as painted and completely

DEFENDER (YÜKSEK GÜVENLİKLİ ZİNCİR DESTEKLİ ROAD BLOCKER)

DEFENDER (HIGH SECURITY CHAIN SUPPORTED ROAD BLOCKER)

Teknik Özellikler

Technical Specifications

Ebatlar	L=5000, 4000 , 3000 , 2000 mm.
Strok	1000-1700mm.
Çalışma Voltajı	380VAC ±%10
Ters Gerilim Koruma Özelliği	var
Açılma/Kapanma Dayanıklılığı	1,000,000 kez
Bekleme Akımı	2A @380VAC
Çalışma Akımı	8A @380VAC
Çalışma Sıcaklığı	-20°C / +50°C
Buton Tipi	3'lü Buton (Aç/Kapat/Dur)
İkaz Elemanları	Trafik Lambası, Flaşör Lamba, Siren
Güvenlik Ürünleri	Fotosel, Lab Dedektör, RFID Sistem, Parmakizi/Şifre Cihazı

Dimensions	L=5000 , 4000 , 3000 , 2000 mm.
Stroke	1000- 1700 mm.
Operating Voltage	380VAC ± 10%
Reverse Voltage Protection feature has	
Opening / Closing Strength	1,000,000 times
Standby Current	2 A @ 380VAC
A feint Current	8A @ 380VAC
Operating Temperature	-40 ° C / +65 ° C
Button Typ	e 3- Button (Open / Close / Stop)
Warning Elements	Trafic Lights, Flashing Light, Siren
Photocell Security Products , Lab Detector , RFID System , Fingerprint / Password Device	

Program Özellikleri	
Program Güvenliği	100 Yıl
Hata Önleme	Power-On-Reset
Hata Takip Özelliği	var
Limit Switch Tipi	Endüktif
Acık Durdurma Özelliği	var
Otomatik Kapanma Özelliği	var
Düşük Güç Uyarı Özelliği	var
Aşırı Akım Koruma	var
Motor Koruma	Gerçek Zaman Saati ile motor koruma
Açılma/ Kapanma Süresi	3-15 sn
Şifre Korumalı Servis Menü	var

Program Features	
100 Years of Security Program	
Power-On -Reset Error Prevention	
Is Bug Tracking Feature	
Inductive Limit Switch Type	
Stop Feature Is Enabled	
Is Auto Power Of Feature	
Is Low Power Warning Feature	
There are Over Current Protection	
Motor Protection motor protection with Real Time Clock	
Opening / Closing Time	3-15 sec
There should Password-Protect Service Menu	

Hidrolik Sistem Özelliği	
Hidrolik Basınç Saati	var
Hidrolik Sıcaklık Saati	var
Hidrolik Seviye Göstergesi	var
Basınç Dayanıklılığı	160 bar
Çalışma Basıncı	20 - 50 bar
Valf Kilidi	var

Hydraulic System	Feature
There Hydraulic Pressure Gauge	
Power Temperature has time	
Power Level Indicator has	
Withstanding pressure	160 bar
Operating Pressure	20 - 50 bar
There Valve Lock
